About Us

Primary Programme

One-year programme where students in Y5/Y6 take part in activities designed to raise aspirations and develop their skills such as confidence, resilience and teamwork. They will work with a range of Employers to understand about the different careers available and about challenging stereotypes in the world of work.

The programme will include a visit to the Cutlers' Hall and a graduation event.

“It’s given me more confidence it’s made me think about what I’m going to do when I leave school”
